-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 13 June 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.
2. This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.
3. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
  - Group I, claim(s) 1-8, drawn to a medicine supply having a reader for reading identification on each of the tablet cases.
  - Group II, claim(s) 9-15, drawn to a medicine supply having a control device for controlling a plurality of motors that drive a plurality of discharge drums.
  - Group III, claim(s) 16-24, drawn to a medicine supply having a control device for performing a predetermined failure prediction operation.
  - Group IV, claim(s) 25-30, drawn to a medicine supply having a color printer for printing label for a packaging container.
4. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:
  - Group I does not need the special technical feature of the control device for controlling a plurality of motors that drive a plurality of discharge drums as required by Group II; and Group II does not need the special technical feature of the reader for reading identification on each of the tablet cases as required by Group I.
  - Group I does not need the special technical feature of the control device for performing a predetermined failure prediction operation as required by Group III; and Group III does not need the special technical feature of the reader for reading identification on each of the tablet cases as required by Group I.
  - Group I does not need the special technical feature of the a color printer for printing label for a packaging container as required by Group IV; and Group IV does not need the special technical feature of the reader for reading identification on each of the tablet cases as required by Group I.

Art Unit: 3721

- Group II does not need the special technical feature of the control device for performing a predetermined failure prediction operation as required by Group III; and Group III does not need the special technical feature of the control device for controlling a plurality of motors that drive a plurality of discharge drums as required by Group II.
  - Group II does not need the special technical feature of the color printer for printing label for a packaging container as required by Group IV; and Group IV does not need the control device for controlling a plurality of motors that drive a plurality of discharge drums as required by Group II.
  - Group III does not need the special technical feature of the color printer for printing label for a packaging container as required by Group IV; and Group IV does not need the special technical feature of the control device for performing a predetermined failure prediction operation as required by Group III.
5. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
6. The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Louis K. Huynh whose telephone number is 571-272-4462. The examiner can normally be reached on M-F from 8:00AM to 3:00PM.

9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rinaldi I. Rada can be reached on 571-272-4467. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
